Trail RCS waterproof daypack 30L

ND200.1101

The Nordic Drift Trail RCS Waterproof Daypack is designed for everyday adventures in changing conditions. Made from innovative reflective RCS-certified recycled polyester, this PVC-free backpack combines durability, visibility, and weather protection. Tested to the IPX5 waterproof standard, it helps protect your belongings from rain and moisture, while the reflective material enhances visibility in low-light conditions. The roll-top closure with flap and buckle keeps the main compartment securely sealed. Inside, you'll find a padded 14-inch laptop compartment, two pen loops, and two passport-sized slip pockets for organised storage. A side pocket provides easy access to a water bottle or other essentials. For all-day carrying comfort, the backpack features an ergonomic padded back panel, adjustable shoulder straps, and a durable webbing top handle.

Titan 10.000 mAh solar powerbank with 3 panels

The Titan solar powerbank 10.000 mAh delivers dependable power in a compact, rugged design for outdoor use. Built with a premium A-grade lithium battery and a casing made from RCS certified recycled ABS/PC, it is designed for durability on the go. Three foldable high efficiency solar panels support off-grid charging. When exposed to bright sunlight, the powerbank charges efficiently, delivering almost 2.000 mAh after only 3 hours. With 20W fast charge via USB-C and 18W via USB-A, plus two integrated charging cables (Lightning and USB-C), it offers flexible charging options. Rated IP63 splash-resistant, it is suitable for outdoor use and light rain and includes a super bright integrated camping light.

- 3 High-efficiency solar panels
- Integrated USB-C and lightning cable
- 400 Lumen powerful campinglight
- IP63 water and dustproof

Everest USB-C 60W fast charging carabiner cable

A durable and versatile 60W fast charging cable designed for everyday use at home, work or on the go. Featuring a practical carabiner design, it easily attaches to your bag or gear for convenient carrying and quick access when needed. Equipped with premium 16-pin USB-C to USB-C connectors and 4 cores of 100% copper for safe and stable charging, it supports fast charging for smartphones, tablets, and laptops while also enabling reliable data transfer. Made with recycled PET and TPE and finished with a premium zinc alloy housing for a refined and durable look and feel.

Traceability.

Nordic Drift is committed to transparency in how our products are made. Selected products include a Digital Product Passport powered by Aware™. By scanning the QR code on the packaging, you can trace the journey of the materials from producer to product. A physical tracer is embedded in the textile at its source and verified throughout the supply chain. Each production step is securely recorded on a public blockchain to ensure reliable data and greater transparency.

Landing page

The landing page shows the brand and brand colours, the product it concerns and an image of the product.

Data

If you scroll down you'll find all the data of the product from the Aware™ blockchain platform.

Trail RCS portable infinity pocket pen with compass

Unlike traditional wooden pencils that write up to 200 metres, the graphite tip of this infinity pencil can write up to 20,000 metres. It writes like a pencil, and graphite marks can be erased as the tip slowly wears down.

No sharpener needed

NEW

Trail RCS fire starter pen with compass

Ready for the outdoors, wherever the trail takes you. The Nordic Drift Trail RCS Fire Starter Pen with Compass contains 29% RCS-certified recycled ABS and is designed for camping, bushcraft, and outdoor adventures. The fire starter tip is safely hidden inside the body and easily accessed with the orange slide button. A detachable scraper helps create strong sparks, while the webbing loop makes it easy to attach to your gear. The integrated compass gives a useful indication of direction when exploring. Comes with an FSC giftbox.

Quality and Design

5
YEAR
WARRANTY

5-year warranty.

When something is made to stand the test of time, you can count on it for years without needing a replacement. That's why every Nordic Drift product is thoroughly tested to ensure the highest level of quality, durability and performance. Because we have complete confidence in our gear, every product is backed by a five-year warranty covering manufacturing defects under normal use. By following the recommended care instructions, you can help extend the life and preserve the performance of each item - so explorers can focus on their adventures, not replacements.

Decoration options

Decoration and printing transform a product into a powerful brand statement. Every printing option we offer is carefully tested for quality and consistency. Our printing options are suitable for a wide range of materials and are designed to maintain colour and detail through regular use. We encourage customers to choose the method that best fits their design and application, as the right printing technique can greatly enhance the overall appearance and longevity of the final product.

Pad print

Applies ink to solid surfaces using a pad for image transfer. Well-suited for durable goods, adaptable to various shapes and materials.

Transfer

Prints logos using screen printing onto foil, which is then heat-pressed onto the item. Applicable to items with textile materials such as bags, backpacks, and apparel.

Embroidery

Stitches logos on items for a textured, sophisticated look on soft materials. Particularly favoured for enhancing textile materials such as bags and caps.
